

Sensory Processing Training

Monday 16th September

10am-2pm

King's House, Ampthill Road,
Bedford

The Paediatric Occupational Therapy (OT) Department are offering basic awareness training for parents / carers on the topic of sensory processing to support their engagement/participation of children in their activities of daily living skills (e.g. handwriting, dressing, fine motor skills).

This is a bookable course so please contact us to book your places today

communications@bbpcf.org.uk

(Please arrive from 9.30 for prompt 10am start, the session will end with lunch at 1pm, please let us know of any dietary requirements when booking)

More Sensory Processing sessions will be arranged over the Autumn/Winter term and we will keep you updated on venues/dates once we have that information, keep a look out...
